WORK EXPERIENCE

Full Stack Development Training

Cuvette, KA, IN

Remote

Oct, 2023 - Present

- Developed proficiency in the MERN stack through hands-on training.
- Designed and implemented responsive web applications from concept to production.
- Integrated front-end UI with back-end services and databases using RESTful APIs.
- Implemented user authentication and authorization using JWT and OAuth.
- Conducted thorough testing and debugging to ensure application functionality and performance.
- Documented technical specifications, user guides, and project documentation.

Jr. Engineer-Design

Jupiter Solar Power Limited, WB, IN

Feb, 2022 - Feb, 2024

- Conceptualized, designed, and developed solar power systems and components, including creating detailed CAD drawings and 3D models.
- Optimized solar panel layouts for maximum efficiency and prepared technical documentation and reports.
- Supported senior engineers in analyzing field data to improve future designs and assisted in troubleshooting and resolving design-related issues during project implementation.
